

Join Crested Butte Mountain Guides professional staff for a special 1-time guided technical climb up the 'Guide's Ridge' to the Summit of Mount Crested Butte, as part of the Living Journeys Summit Hike. Take part in a truly unique experience and raise money and awareness for a good cause all at the same time. Participants will be treated to a small group of 3 people or less per guide, and after a brief ride to the top of the Silver Queen lift, will ascend around 750' of roped technical, but very easy climbing, up a thrilling and little travelled route to join other supporters and hikers on the summit. A regular summer guided activity for the Crested Butte Mountain Guides, this endeavor has been undertaken by kids, families and first-time climbers, and would be a special way to experience and commemorate a special occasion. A portion of the proceeds from this guided climb through Crested Butte Mountain Guides will be donated to Living Journey's as well as all standard registration fees.
